FIVE QUESTIONS TO ASK A RISK MANAGEMENT CONSULTANT

01 What is your area of risk management expertise – organisational, safety, environmental, engineering, project or financial?

02 Is your risk management process defensible i.e. will it survive post event legal scrutiny?

03 Demonstrate how your risk management process ensures "buy-in" from all stakeholders.

04 Are you bound by a code of ethics and if necessary, will you sign a confidentiality agreement?

05 Does your proposal include tasks to be completed, time frames and indicative fees?
